PROFESSIONAL SUMMARY

Result-driven Full Stack Web Developer with 3+ years of professional experience building, scaling, and maintaining enterprise-grade web applications, ERPs, and multi-tenant SaaS platforms. Expert in PHP (Laravel), Node.js (Express.js), Python (Django), React.js, and Next.js. Successfully delivered and maintained 18+ commercial web applications currently operating in live production, handling 50,000+ daily transactions with 99.9% uptime. Proven track record in database query optimization (reducing response times by up to 40%), RESTful API design, RBAC security, and Linux server management.

TECHNICAL SKILLS

- **Backend Development:** PHP (Laravel), Node.js (Express.js), Python (Django), RESTful APIs, Microservices Architecture
- **Frontend Development:** JavaScript (ES6+), React.js, Next.js, HTML5, CSS3, Redux Toolkit
- **UI Frameworks:** Material UI (MUI), Tailwind CSS, Bootstrap
- **Databases & ORM:** PostgreSQL, MySQL, MongoDB, Eloquent, Prisma
- **System Architecture:** Enterprise ERP, Multi-Tenant SaaS, Modular Architecture, Role-Based Access Control (RBAC)
- **Performance & Scale:** Query Optimization, Database Replication, Load Balancing, Caching, Indexing, Socket.io Real-Time Systems
- **Tools & DevOps:** Git, GitHub, Docker, Linux (Ubuntu), Nginx, Postman, PM2, CI/CD Baselines, AI.
- **Soft Skills:** Effective communicator, collaborative team player, strong problem-solving abilities

PROFESSIONAL EXPERIENCE

Application Developer — Legend IT Solution, Rangpur, Bangladesh
January 2022 – Present

- **System Architecture & Scale:** Architected and deployed scalable backend services using Laravel, Node.js, and Django for 18+ enterprise production applications, serving over 100,000 active monthly users.
- **Enterprise ERP Development:** Engineered end-to-end ERP and SaaS applications integrating POS, multi-location inventory, automated supply chain, HR, and accounting modules, resulting in a 30% reduction in client operational workflows.
- **Database & Query Optimization:** Optimized complex MySQL and PostgreSQL database queries, indexing, and eager-loading techniques, improving overall page load speeds by 35% and reducing server response time from 1.2s to under 300ms.
- **API Development & Integration:** Built and documented 150+ RESTful APIs with robust authentication (JWT/Sanctum) and RBAC, maintaining high throughput for cross-platform integrations.
- **Real-time Infrastructure:** Integrated real-time messaging, dynamic order updates, and live stock tracking systems using Socket.io, ensuring sub-second data synchronization.
- **Server Management & Maintenance:** Managed Linux (Ubuntu/Nginx) server deployments, environment configurations, and continuous application updates, achieving 99.9% application availability.

SELECTED LIVE PRODUCTION PROJECTS

Akboria Limited | akborialimited.com

- Multi-business Enterprise ERP system managing 7+ operational units (Bakery, Auto Cookies,Grand Hotel, De-Restro, Doi Misty Unit, Misty Mela and HR Unit), centralized POS, inventory.
- HR Management of those multiple units. HR Attendance and Payroll. Accounts & Finance management and Reports.

Sha Sultan Poultry & VIP Shahadat Poultry | shasultanpoultry.com | group.vipshahadat.com

- End-to-end industrial poultry ERP handling feed mill production tracking, Hatchery management, batch inventory management, and distribution operations.

Tarek Bakery & Equator | tarekbakery.com | equatorint.com

- Multi-tenant SaaS-based enterprise platforms designed for scalable multi-location food production, supply chain, and centralized corporate operations.

Matribhumi Dairy & Varosha Food Industries | matribhumidairy.com | varoshafoodindltd.com

- Large-scale manufacturing ERPs featuring automated batch processing, stock audit, real-time distribution tracking, and dynamic accounting modules.
- Batch wise production, Finish Goods production, Warehouse management, Sales & Distribution.

Aloghar Prakashana | alogharerp.com

- Large-scale book catalog management with ISBN tracking, edition control, and real-time inventory across multiple warehouses
- Book Sales management, Distributes Customer, Shop, Library and Mela/Stall.

Additional live production systems include Bismillah Telecom, Ananpack BD, Haque Bakery, and MH Traders.

PERSONAL PROJECTS

Real-Time Private Chat Application | Node.js, Express.js, MongoDB, Socket.io, EJS

- Developed a scalable event-driven messaging app with low-latency communication, user presence tracking, search filtering, and message controls.

Dynamic CMS Platform | PHP, Laravel, JavaScript, Tailwind CSS, MySQL

- Built a lightweight, SEO-optimized Content Management System featuring customizable admin panels and dynamic page-building capabilities for non-technical users.

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science & Engineering (CSE) — **Expected Graduation: Dec 2028**
University of South Asia

Diploma in Computer Engineering — **August 2017 – December 2022**
Rangpur Polytechnic Institute

Secondary School Certificate (SSC), Electronics Technology — **August 2016 – April 2017**
Rangpur Technical School & College

LANGUAGES

Bengali: Native | English: Professional Working Proficiency
